Armrests:

Rigid armrests made of glass fibre-reinforced, black, through-dyed polypropylene

Optional: with upholstered armrest pads with leather 74/99, black when covered with fabric (not stackable)

Optional: with upholstered armrest pads to match the colour of the leather if leather covers are chosen (not stackable)

Environmental product information:

Material used: plastics: 38%, steel 60%, wood-based products 2%

Returns, disassembly and recycling:

All components in the ON conference/visitor chair are suitable for non-destructive disassembly.

(The seat cushion is glued to the seat upholstery panel and the fabric is stapled to the seat upholstery panel).

In order to guarantee materials are sorted according to type, all components over 150 g in weight are labelled. No agents to protect materials, or organic halogen compounds are used that prevent recycling at a later date. A total of 93 per cent of the chair can be recycled.
