Metrik

Museum Franz Gertsch, Burgdorf, Switzerland. Jörg + Sturm Architekten AG, 2002. Metrik cantilever chair: Organic. Ergonomic. Iconic.

Metrik

186 range, design: whiteID

The Metrik cantilever chair stands apart for its sculptural shape. The different thicknesses of materials, polygonal areas and rounded edges are reminiscent of modern transportation design. It has taken until today to make such a complex structure from one piece of material. The seat and the tubular frame are the same colour to lend greater emphasis to the integrated design. The spacious shape of the inside of the chair with its integrated seat cushion offers ergonomic comfort which can be further enhanced by extra cushioning at the back. The distinct design and the range of colourways mean that Metrik can be seamlessly incorporated into a diverse range of design worlds and with a chrome-plated frame it's also stackable.

Cantilever chair
Up to six stackable

The contemporary, sculptural but nevertheless understated form is just as eye-catching as the colours it comes in.

Hard-wearing materials and superior comfort predestine Metrik for co-working and multipurpose areas.

Metrik's versatile design means it's easy to combine with other table and office chair ranges.

The chrome-plated frame makes Metrik an impressive stackable chair for cafeterias, training rooms and seminar spaces.

Frame surfaces

Bright chrome-plated tubular steel, coated black, grey, grey-beige, orange-red, blue-grey or white with a textured matt finish

Seat and backrest shell

Black, grey, grey-beige, orange-red, blue-grey or white
