

## Occo SC.

221 range

Occo SC  
Design: jehs+laub

Model 221/10

The Occo chair and table range makes it possible to unite different atmospheres in meeting, canteen and conference spaces through a clear and identifiable design.

Because the chairs with armrests and their distinctive and enveloping shell come in six colours, four frame types and four upholstery versions. The new sibling, Occo SC (Side Chair), has no armrests and is slightly more slender in design – but still clearly one of the family nevertheless. The shell and its characteristic cut-out section offer superior comfort and enable the adoption of different postures. The chair's compact size means rooms can be used efficiently.

Occo SC is available with the Occo colour, frame and upholstery options. As a result, we've doubled the options available for the Occo "seat kit" to 192 – a perfect combination of variety and identity.

**Frame surfaces, seat and backrest shell**

Black, grey, grey-beige, orange-red, blue-grey or white, textured matt finish

**Additional frame surfaces**

Bright chrome-plated tubular steel or solid oak
